Aviation examination and licensing experts

"Aviation authorities trust our world-class services and security."

Trust us to manage your examinations, like our community of worldwide regulatory customers have been doing for 30 years.

World-class examination services

We assess people's skills and knowledge using secure technology services. Our services and software are currently used in the aviation, transport, health, construction and finance sectors in more than 25 countries worldwide.

We are global leaders in providing:

- › Online booking and payment services.
- › Examination and question bank management.
- › Online examination delivery.
- › English language testing.
- › Practical and workplace assessments.
- › Assessment consulting.

Examinations

Our high stakes examination solution enables effective assessment of candidate competence with absolute peace of mind.

We provide:

- › A range of question delivery formats for effective knowledge assessment.
- › Flexible exam generation rules enabling fix-forms or on-the-fly randomised question selection.
- › A locked-down browser for secure online examinations.
- › Fully traceable results management.
- › Online 24/7 candidate support and help desk.
- › Integration with regulatory authority systems and licensing databases.

—
“Our high-stakes exam services help to ensure candidates meet your organisation's exacting standards”.

E-Licensing

Our e-Licensing software provides a complete electronic solution for managing aviation licences, from application submission to licence production.

- › Easy application process that checks the applicant's licence requirements (“Am I ready?” check).
- › Online and fully traceable – no paper processing.
- › Higher quality licence information maintains high standards.
- › More efficient business processes and better customer service.
- › Automated workflows control each application stage.
- › Enhanced security and information tracking.
- › Auditing capability ensures applications meet all regulatory requirements.
- › KPI performance monitoring and visual reporting.

Enhanced security

Our robust examinations and licensing solutions meet the highest international standards.

- › Secure online booking and payment solutions.
- › Secure protection of all customer information through high level encryption.
- › Secure candidate portals to manage personal details.
- › National and international network of exam centres.
- › Invigilators onsite throughout examination.
- › Candidate identification verification processes.
- › Examination entry guidelines.
- › Secure candidate results portal.
- › ISO9001 certified (Quality Management System).
- › ISO27001 certified (Information Security Management System).
